THE CHALLENGE COMPOUNDING PHARMACIES FACE

Fragmented Sourcing

Pharmacies struggle to find a single, reliable source for both raw ingredients and packaging materials, leading to delays and compliance gaps.

Quality Uncertainty

Inconsistent API purity and incomplete documentation put patient safety at risk and create regulatory exposure for 503A/503B facilities.

Scaling Complexity

Transitioning from manual compounding to high-volume production requires specialized equipment and expertise that is hard to source.

WHO WE ARE

Our Mission

To empower 503A and 503B compounding pharmacies with reliable, high-quality supply chain solutions that enable them to deliver critical medications to patients safely and efficiently.

Our Story

Founded to close the gaps in pharmaceutical compounding supply chains. By combining global sourcing expertise with deep FDA regulatory knowledge, we built a one-stop portfolio —from API powder to capped vial.

FDA-Registered Importer of Record

USP-standard APIs with full batch traceability

Single source for ingredients & packaging

Built-in compliance & quality assurance

Specialists in GLP-1 & high-demand peptides

OUR THREE CORE SERVICES

A complete supply chain solution — from raw material to finished vial

APIs & Peptides

- GLP-1 & Peptide : Semaglutide, Tirzepatide
- Specialty therapeutic peptides
- USP-standard, batch-traceable
- COA, MSDS & import docs included
- Hard-to-find, high-demand APIs

Sterile Packaging & Cleanroom

- Borosilicate glass vials (2–100ml)
- Clear & amber, RTU & RTS options
- Bromobutyl & chlorobutyl stoppers
- 13mm and 20mm sizes
- Color-coded aluminum flip-off seals
- BUILDING CLEANROOMS (GMP)

Automation Equipment

- Peristaltic & piston pump filling
- $\pm 0.5\%$ precision accuracy
- Automated stoppering & capping
- ISO 5 laminar flow hood compatible
- Scale from 503A to 503B volumes

COMPLIANCE & QUALITY ASSURANCE

Quality is the foundation of patient safety — and the core of everything we do

FDA Registration

Fully registered establishment & importer of record. Compliant customs & border protection logistics for all pharmaceutical component imports into the US.

Full Documentation

Every lot ships with Certificate of Analysis (COA), MSDS, TSE/BSE statements, sterility certificates, and complete importation records.

Supply Chain Integrity

Trusted pharma-specialized logistics partners with temperature excursion monitoring from factory floor to your loading dock.

Vendor Qualification

Strict manufacturer qualification including on-site GMP audits and quality agreements before any product enters our supply chain.

THE TEAM 4 PRODUCTS ADVANTAGE

Why compounding pharmacies choose us as a long-term supply partner

One Source

APIs, packaging, and automation all from a single trusted partner. No fragmented vendor management.

Expert Support

We act as an extension of your purchasing department —familiar with compounding regulatory realities.

Consistent Quality

Every batch meets USP standards. No compromise on purity, documentation, or traceability.

Growth Partner

Whether a startup 503A or scaling to 503B, our solutions grow with your operation.

Reliable Delivery

Pharma-specialized cold-chain logistics. Every shipment monitored end-to-end.

Compliance Ready

COA, MSDS, TSE/BSE, and sterility certificates with every order. Always audit ready.

PRODUCT CATALOGUE SNAPSHOT

Category	Product	Key Spec	Docs Provided
APIs – GLP – 1	Semaglutide	USP – grade, high purity	COA / MSDS / Import Docs
APIs – GLP – 1	Tirzepatide	USP-grade, batch-traced	COA / MSDS / Import Docs
APIs –Peptides	Specialty Therapeutic Peptides	Multiple clinical applications	COA / TSE/BSE / MSDS
Packaging	Borosilicate Glass Vials	2 – 100ml, clear & amber, RTU	Sterility Certificate
Packaging	Rubber Stoppers	Bromobutyl & Chlorobutyl, 13/20mm	Low extractables cert
Packaging	Aluminum Seals	Flip-off & standard, color-coded	Batch records
Automation	Vial Filling Machine	Peristaltic/piston, $\pm 0.5\%$ accuracy	Tech sheet & calibration
Automation	Stoppering & Capping Unit	ISO 5 compatible, low contamination risk	Tech sheet & IQ/OQ docs

HOW WE WORK TOGETHER

A transparent, structured process from first contact to long-term supply partnership

1

Initial Consultation

We learn your product mix, volume needs, and compliance requirements.

2

Custom Quote

Tailored proposal with pricing, lead times, and full documentation package.

3

Vendor Qualification

We provide all QA documents required for your supplier qualification file.

4

First Order & Review

Place your order. We monitor logistics and confirm quality on receipt.

5

Ongoing Partnership

Dedicated support, proactive alerts, and priority access to new products.

WHAT OUR CLIENTS SAY

“

They understand the regulatory and operational realities of 503A/503B pharmacies. Team 4 Products has become a trusted extension of our supply chain.

**Daniel
Carter**

Quality &
Compliance Lead

“

From APIs to sterile packaging, everything met our specifications exactly. Their attention to compliance and detail saves us time and avoids costly delays.

**Sarah
Mitchell**

Director of
Pharmacy Services

“

Team 4 Products made our sourcing process simple and stress-free. Clear documentation, consistent quality, and fast responses gave us confidence at every step.

**Michael
Anderson**
